ESTABLISHED

**BUIST'S SEEDS** are grown from Select-  
ed Seed Stocks, that is,  
the finest specimens of  
each class of Vegetables  
are annually Selected  
from the growing crops  
to produce Seed to Sow  
the following Season—  
Seeds Grown under  
this System are annual-  
ly being improved, but  
where no Selections are  
made, they are annual-  
ly degenerating.

**THERE** is no Seed  
establishment in this  
country where a Stric-  
ter Personal Surveil-  
lance is given to all or-  
ders received than at  
Buist's—errors are  
therefore avoided and  
delays in Shipment sel-  
dom occur.

**BUIST'S SEEDS**  
are not commissioned.  
If they were, they  
would very soon lose  
their established repu-  
tation for Purity and  
Reliability.—Buist's  
are of the New Crop  
each Season. Com-  
mission Seeds may have  
been when first put up,  
but that may have  
been years since.

### SPECIAL QUOTATIONS.

If you are a large pur-  
chaser of Seeds, it will  
always afford us great  
pleasure to make you  
Special prices if you  
will kindly enclose us a  
list of your require-  
ments.

**TERMS OF SALE.** Four months credit—cash discount, five per cent. if paid within ten days. Accounts are subject to draft when due. Purchases on Special Quotations, sixty days credit or two per cent. for cash.

**WE SELL TEN POUNDS** or over at the Hundred Pound quotation.

**NET CASH GOODS** are Onion Sets, Potatoes, Field Corn, Bird Seed, Grass, Clover, and all other Agricultural Seeds, these must be remitted for when ordered or be subject to sight draft on ship-  
ment.

**PERISHABLE GOODS.** Onion Sets and Potatoes are always shipped by us in the very finest order, and packed to carry safely; but as they are subject to damage by excessive heat or cold in trans-  
it, over which we have no control, such risk must be assumed by the purchaser. No claims can be  
allowed for damages.

**BARRELS—BOXES—SACKS** are CHARGED at COST, and are not returnable for credit, and will only be accepted to be used on future orders.

**YOUR SEED TRADE** can be very much increased by selling Buist's Growth, and possibly greater satisfaction given to your customers, as there is no brand that has attained a greater reputation for their Purity and Reliability. They have a 78 year record.

**Buist's Pictorial Brand** of Garden Seeds in  
Packets are the  
most elegant and attractive in the trade and are Reliable.

It requires no talking or persuading to sell them, as they sell themselves. It is a well known fact that the vegetables Buist's Seeds produce are as near perfection as can be grown. They are the most profitable to grow.

## Cabinet Assortments FOR MERCHANTS

The varieties put up in our Cabinet Assortments are selected especially for the locality in which they are to be sold, they are always of the New Crop and a reputation of Seventy-seven years standing is a guarantee of their Reliability.

## BUIST'S IMPROVED HALF-LONG SCARLET CARROT

### CARROT—French Grown (American Grown seed is far inferior to the French.)

Carrots grown from French Seed are always brighter in color and more perfect in form than those from the American, which is owing to their being transplanted and selected; the foliage is also of dwarfer habit.

## BUIST'S SELECTED ONION SETS

We are the most extensive growers and shippers of Onion Sets in the trade, with a reputation of shipping the finest samples. They are smaller, more uniform in size, and better cleaned than those of Western growth, and will keep longer without sprouting. We also use a  $\frac{7}{8}$  mesh in cleaning them, while Western and many other growers use an inch, making our sets of much smaller size and more salable. We also fan and clean each order separately. Onion sets are sold for net cash and subject to cost for barrels and crates for packing them.

These quotations are for immediate orders, and for shipment during November and December as required, for these months we supply 35 lbs. to the bushel, and not 32, as are given by many houses.

## RADISH—French Grown, Finest Stocks

French Grown Radish Seed is far superior to the American, both in purity, form and color, as it is grown entirely from transplanted roots; this process also retards the crop from shooting to seed, it therefore remains in marketable condition for a longer period.
